geplante Auslieferung Herbst 2018 | planned delivery date autumn 2018

PARROT

A bright bird and a good friend

As a fully portable, cable-free lamp, PARROT is a dynamic tool for illumination that allows you to create light situations in multiple contexts. With its powerful integrated battery and innovative charging stone, PARROT is never affixed and always free to move. It provides up to 10 hours of battery life on full power, increasing exponentially up to 100 hours when dimmed. PARROT invites joyful, experimental use with its intuitive light control and lightweight, adaptable body. The aluminum frame is height-adjustable by 42cm, with a 30° tilt and 310° rotation to the lamp head. Use PARROT for reading, working, by your bed, desk, as an architectural light, or as a mobile sculptural object.
