

JOHN 2

Clear Thinking

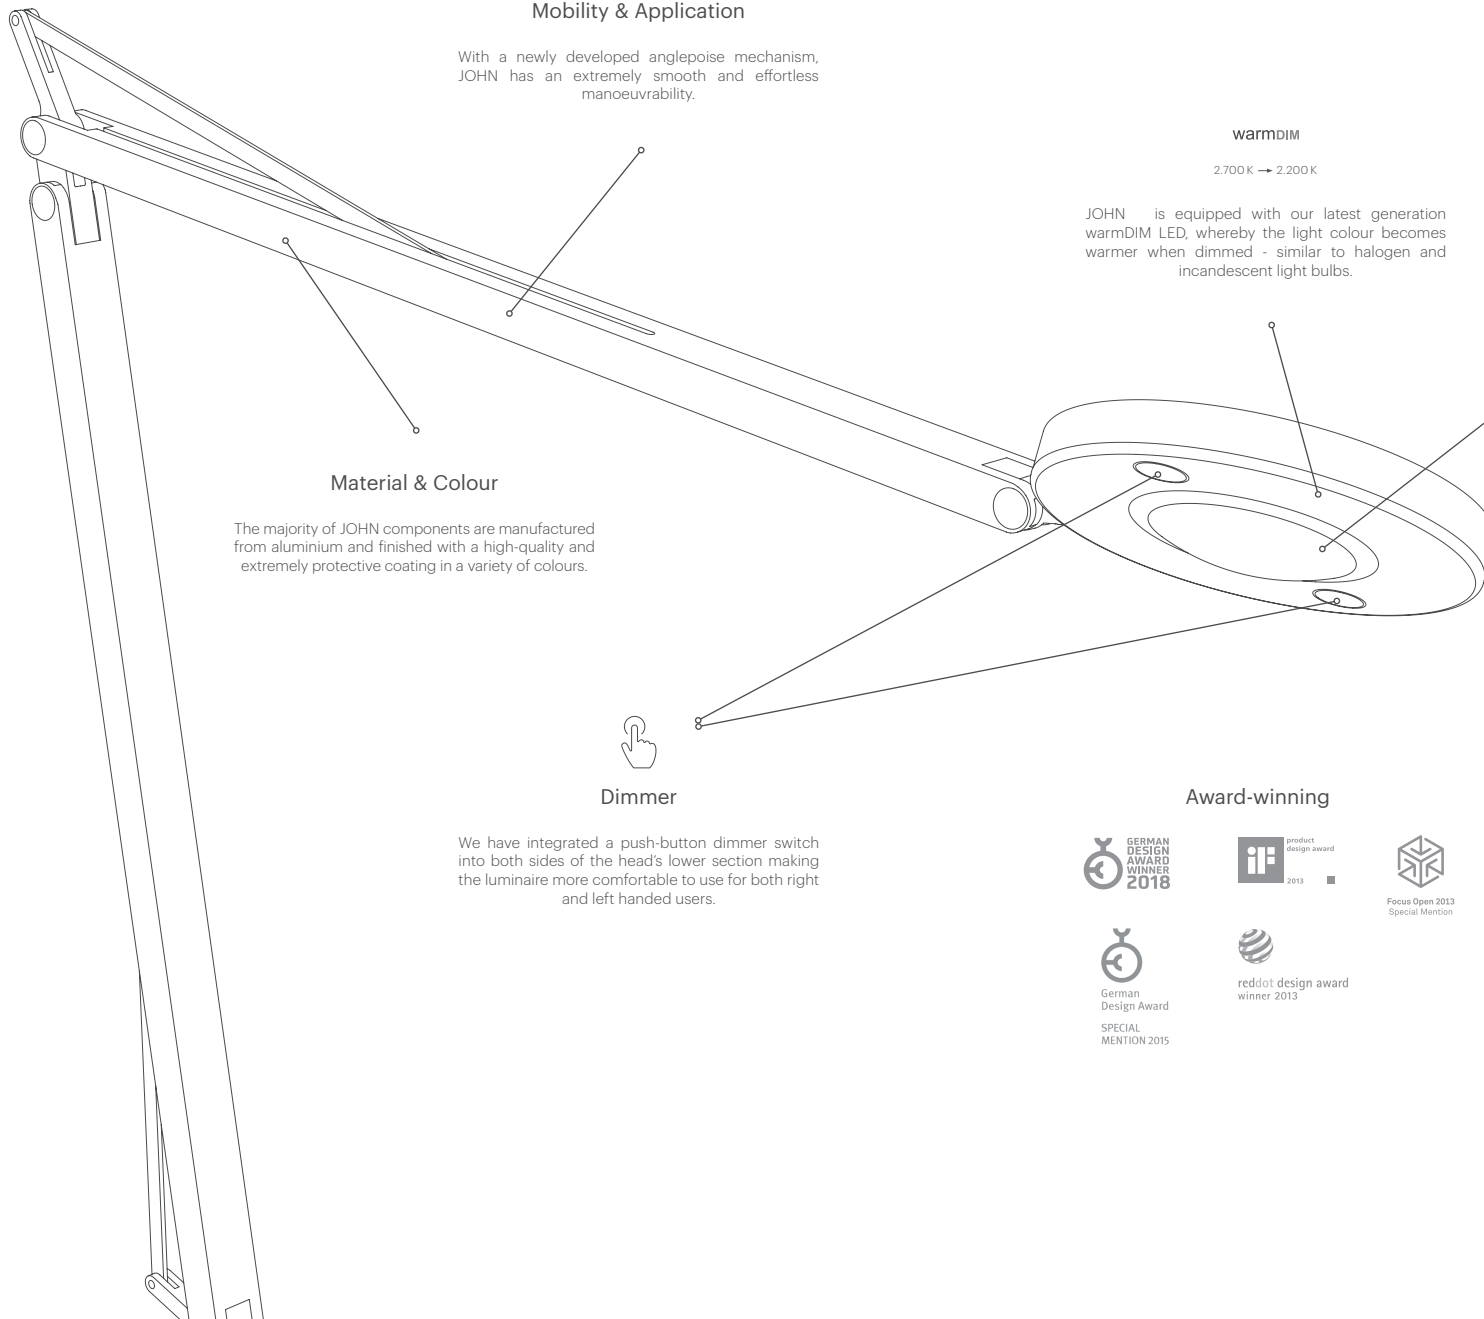

tobias grau

Mobility & Application

With a newly developed anglepoise mechanism, JOHN has an extremely smooth and effortless manoeuvrability.

Material & Colour

The majority of JOHN components are manufactured from aluminium and finished with a high-quality and extremely protective coating in a variety of colours.

warmDIM

2.700 K → 2.200 K

JOHN is equipped with our latest generation warmDIM LED, whereby the light colour becomes warmer when dimmed - similar to halogen and incandescent light bulbs.

Glare Control

A large optical enables JOHN to create a brilliant and targeted light. Irrespective of whether the luminaire head is positioned upwards or strongly inclined – the glare control is always perfect.

JOHN PIN

In addition to our standard PIN adaptation, we also offer specialised adaptations for office furniture from leading manufacturers.

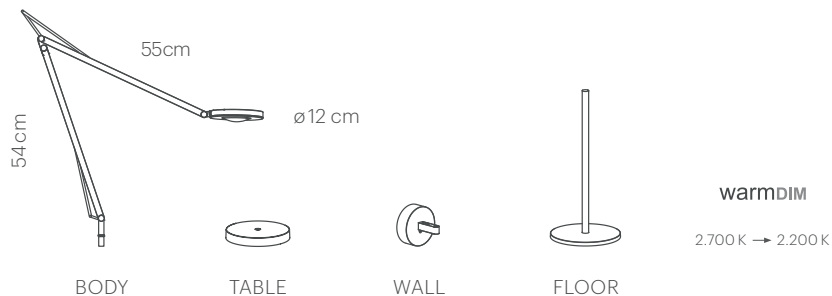

Dimmer

We have integrated a push-button dimmer switch into both sides of the head's lower section making the luminaire more comfortable to use for both right and left handed users.

Award-winning

material	metal, PC-glass
dimming	dimmer integrated
rated voltage	220 – 240 V
LED colour temperature	2.700 K / 3.500 K
luminaire luminous flux	850 lm / 1.150 lm
Colour Rendering Index	CRI > 90 / CRI > 80
power consumption (max.)	10 W / 10 W
energy efficiency	A – A++
Design	Tobias Grau

JOHN 2

The ultimate minimalist and moveable table lamp

For a moveable surface, desk, or workstation lamp, it doesn't get better than JOHN 2. This top performance table light combines minimal design with advanced engineering to offer the most fluid and responsive mobility as well as precise, powerful LED lighting. Dimmable and with top glare reduction through its optical lens, JOHN 2 ensures optimal reading and working light.

Minimal and restrained in style, JOHN 2 is a masterwork of Tobias Grau engineering. Our technicians spent more than a year optimizing its design to enable outstanding quality of motion as well as state-of-the-art LED lighting. Two super smooth spring joints and a rotatable lamp head allow adjustment to any desired position and powerful illumination of any work area. Opposing dimming switches at the lamp head offer easy left- and right-handed control.

We're here to help you.
