SIXTEEN

Proud yet delicate proportions define this table luminaire

Sweet SIXTEEN makes the graceful bold. This striking lamp for table or floor creates a beautiful, balletic silhouette, defined by delicate equilibrium and a lithe elongation of form. The shade in mouth-blown glass or bone china creates a particularly serene aura of light while drawing on the plisse lampshade tradition for a poetic symmetry of classic and contemporary detail. SIXTEEN is available with a white porcelain, white glass, or dark glass shade. Integrated warmDIM technology automatically adjusts colour temperature according to brightness. Turn the dimmer up, and SIXTEEN provides a crisper, brighter light. Dim down, and the light softens to a gentle amber glow.

We're here to help you.
