farewell to the other side... a joint exhibition 2.0

Sabine Bürk, a former set decorator in TV,film&theatre, has a unique way of redoing furniture.

Surfaces are refurnished, using a wide range of patterns,styles and materials.

The original shape of the furniture piece is an important factor regarding the decision as to which “ new dress “ the item will receive. For 23 years she has designed this special look e.g. rock,pop,glam,western,concrete,marble,leather,check pattern.

This time “ ChainReaction “ furniture of the 60s and 70s combined with aluminium chains.
